Expected graduation year: 2021

GPA: 3.5

EXPERIENCE

Design of Everyday Things(Design 1) Instructional Assistant

(01/20- present)

- Part of the teaching staff for Design 1. Leading 2 large discussion studio sections a week for students with 1 to 2 other instructional assistants. Teaching terms, different parts of the design process and answering any questions students have from lecture. Leading small group discussions and critique sessions during studio sections.
- Make weekly quizzes, hold weekly office hours to answer student's questions and critique their projects.
- Grading and giving students feedback on projects and journals

Interaction Design – COGS 120/CSE 170

- Created a borrowing clothes mobile app using HTML, CSS, JavaScript, and jQuery over the course of 10 weeks
- Learned fundamental methods for designing, implementing and evaluating user interfaces.
- Focused on user-centered design, rapid prototyping, and visual design
- Created paper prototypes, low-fidelity and high-fidelity mock-ups on Figma
- Did user testing and used Google Analytics to complete a/b testing to improve app's workflow and layout

Introduction to Computer Science and Object-Oriented Programming: Java and C CSE 11 and 5a

- Introduction to computer science and programming using JavaScript and C
- Introduction to algorithms and top-down problem solving.
- Covered functions, arrays and standard libraries.
